

Type:
Project:

HIGHLIGHTS

- Up to 10,000 lumens in 1x4, 12,000 lumens in 2x2, & 24,000 lumens in 2x4
- Surface, grid, and flange mounting available
- Machine-welded housing
- Two distribution options: symmetric and asymmetric
- Static white, red, green, amber, & combo of white and color
- Dual dimming circuits with shared and separate neutrals
- Frosted acrylic and polycarbonate lens options
- Integrated occupancy sensor option
- Gloss and matte white antimicrobial finishes standard
- Base ambient operating temperature: -4°F (-20°C) to 104°F (40°C)
- nLight® wired and wireless options
- Listings: IP65 standard, IP66 optional, ISO 5-8 (Class 100-100,000), MIL-STD-461G, NSF Splash Zone 2, BioSafety_Levels 1 & 2

DIMENSIONS

Series	Mounting	Size	(A) Overall Length	(B) Housing Length	(C) Housing Width	(D) Overall Width
HSTL	G or F	2X4	47-3/4"	46-1/4"	22-1/4"	23-3/4"
		2X2	23-3/4"	22-1/4"	22-1/4"	23-3/4"
		1X4	47-3/4"	46-1/4"	10-1/4"	11-3/4"

*Note: When selecting 347v, additional top housing adds 2-5/8" to fixture height.

Series	Mounting	Size	(A) Overall Length	(D) Overall Width

SPECIFICATIONS

Housing

Machine welded housing construction of 20-gauge cold rolled steel. Anti-microbial polyester powder paint finish standard. MIL-STD461G. Detachable flanges and surface mount option available.

Door

Hinged door frame sealed with closed cell silicone gasket. Lens is 1/8" clear acrylic with a clear polycarbonate lens option available.

Finish

Housing and door frame anti-microbial polyester powder paint is NSF Splash Zone 2 rated.

Mounting

Lay-in grid or sheet rock mounting utilize combination of swing-arms and support from building structure above fixture. Surface mount fixtures are mounted direct to sheet rock ceiling with support from building structure above fixture. Reference installation instructions for more information.

Source

Multiple LED lumen packages provided for (5) white color temperature options: 2700K, 3000K, 3500K, 4000K, or 5000K. Three optional secondary color LED available: Red (630nm), Green (518nm), Amber (580nm). All LED within a 2.5 step MacAdam ellipse.

LED Life

LED Light engines consisting of modular boards. LED rated for 100,000 hours L70 (white) and 120,000 hours L70 (colors)

LED Driver

eldoLED® driver provides smooth, continuous, flicker free dimming to dark < 20%. Insignificant inrush current at 120 and 277VAC. FCC Class A and B tested for EMI and RFI. Driver will be set for Logarithmic dimming curve. Luminaire Surge Protection Level: Designed to withstand up to 6kV/3kA per ANSI C82.77-5-2015.

Voltage

120 through 277v in 50 to 60Hz; 347v available with supplied integral stepdown transformer.

Circuits

Single and dual circuit options available with shared or separate neutrals.

Emergency Battery (Optional)

Integral emergency battery for operation of 90 minutes. Emergency battery pack, 10W, Linear Constant Power Certified in CA Title 20 MAEDBS.

Controls and System Networking Options

Optional integrated nLight® controls make each fixture addressable - allowing it to digitally communicate with other nLight enabled controls such as dimmers, switches, occupancy sensors, and photocontrols. Connection to nLight is simple. It can be accomplished with remote nLight AIR wireless or through standard Cat-5 cabling. (cabling "by others") nLight offers unique plug-and-play convenience as devices and luminaires automatically discover each other, while nLight AIR is commissioned easily through an intuitive mobile app.

Fixture Weight

(Weight may vary depending upon options or accessories selected.)
1x4: 28 lbs (12.7 kg)
2x2: 28 lbs (12.7 kg)
2x4: 45 lbs (20.4 kg)

Environment

Wet location IP65 listed. IP66 rated, from below fixture only, with overlapping door frame options.
Cleanroom ISO 5-8 (Class 100-100,000) Environment

Certification

CSA certified to meet U.S. and Canadian standards (UL1598 and UL8750) or NOM Certified.
IC and Non-IC rated options. Reference chart for noncompliant configurations requiring a thermal protector. Suitable for Bio Levels 1 & 2. Certified for NSF Splash Zone 2. Base grid and flange mount configurations for use in ambient temperatures ranging from -20°C (-4° F) to +40°C (+104°F) with exception of the following lumen packages (1x4 - 10000LM; 2x2 - 10000LM and 12000LM; 2x4 - 18000LM and 24000LM). Also, all surface mount, emergency, or control options are +25°C (77°F) maximum.

Buy American

Product with the BAA option is assembled in the USA and meets the Buy America(n) government procurement requirements under FAR, DFARS and DOT. Please refer to www.acuitybrands.com/buy-american for additional information.

Warranty

5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: www.acuitybrands.com/support/customersupport/terms-and-conditions

NOTE: Actual performance may differ as a result of enduser environment and application.
All values are design or typical values, measured under laboratory conditions at 25°C.

A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® control networks when ordered with drivers marked by a **shaded background***
- This luminaire is part of an A+ Certified solution for nLight control networks, providing advanced control functionality at the luminaire level, when selection includes driver and control options marked by a **shaded background***

To learn more about A+, visit www.acuitybrands.com/aplus.

*See ordering tree for details

PHOTOMETRICS

Consult www.acuitybrands.com for photometry.

Photometric data based on test results from an independent NIST traceable testing lab. IES data is available at www.healthcare-lighting.com. Always refer to our website for the latest IES file updates.

SENSOR DATA

Embedded Motion Sensor

(see www.acuitycontrols.com for additional information)

- 360 passive infrared motion detection coverage
- Mounts into 2.65" (6.7 cm) square opening in fixture minimum depth 1.50" (3.8cm)
- On/Off dim
- IP66 rated
- Photocell and 0-10VDO dimming options

HIGH MOUNT 360° LENS (MSE6xxx (aka.: Sensor Switch® SBG 6))

- Best choice for 15 to 45 ft (4.57 to 13.72 m) mounting heights
- 15 to 20 ft (4.57 to 6.10 m) radial coverage overlaps area lit by a typical high bay fixture
- Excellent detection of large motion (e.g. walking) up to a 35 ft (10.76 m) mounting height
- Excellent detection of extra large motion (e.g. forklifts) up to a 45 ft (13.72 m) mounting height
- Tested to NEMA WD 7-2011

LOW VIEW

HIGH VIEW

LOW MOUNT 360° LENS (MSE10xxx (aka.: Sensor Switch® SBG 10))

- Best choice for large motion detection (e.g. walking)
- 360° conical shaped pattern
- Provides ~24 ft (7.32 m) radial coverage (~2000 ft²) when mounted at 9 ft (2.74 m)
- 7 to 15 ft (2.13 to 4.57 m) mounting heights provide 16 to 36 ft (4.88 to 10.97 m) radial coverage
- Detection range improves when walking across beams compared to into beams
