Hazardous Area Lighting Fixtures

Catalog Number	
Notes	Type

Description

- Versatile, heavy-duty explosion-proof LED fixture designed for hazardous environments where flammable gases or vapors, flammable liquids, combustible dust and/or ignitable fibers may exist.

Optics

- Heat resistant, internally prismatic glass globe for optimal photometric performance.
- Electro-Polished stainless steel wire guard.
- Borosilicate glass lens.

Mechanical

- Driver housing, outlet boxes and lens retaining rings are high strength corrosion resistant copper free (less than 0.4%) aluminum.
- Utilizes one piece silicone gaskets with stainless steel hardware.
- External fins, internal fins and strategic location of driver and other components provide efficient heat dissipation for cooler operation and longer driver life.
- Exterior finish is baked-on powder epoxy for added corrosion protection.
- Available in five mounting styles: pendant, ceiling, 90° wall bracket, 25° stanchion mount and trunnion.
- Factory sealed – external seals not necessary

Electrical

- Wireless electromechanical connector block for quick, safe fixture removal and bench-top maintenance.
- Acme double lead threads are provided for quick & easy trouble-free maintenance.
- Standard color temperature – 5000 K CCT.
- 10 kV/10kA surge protection.
- Non-dimmable

Listings

- UL Listed to US and Canadian Standards
- Suitable for use in hazardous locations (UL844) Class I, Division 1, Groups C and D Class II, Division 1, Groups E, F and G Class III
- Zone Equivalency Marking (see chart on page 4)
- 4°F (-20°C) to 131°F (55°C) (see chart on page 4)
- Paint Spray Booth (to 40°C)
- NEMA 4X rated
- IP66 rated

Buy American Act

This product is assembled in the USA and meets the Buy America(n) government procurement requirements under FAR, DFARS and DOT regulations. Please refer to www.acuitybrands.com/buy-american for additional information.

Warranty

5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: www.acuitybrands.com/support/warranty/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

Typical Applications

- Paint Spray Booth
- Coal & Dust Storage
- Petroleum Refineries
- Ethanol Facilities
- Chemical Plants
- Waste Water & Water Treatment Plants
- Power Generation Plants

Dimensions: Inches (millimeters) unless otherwise noted.

See individual fixture dimensions and weight specifications on page 2.
