

Juno® SlimBasics™ JSBT Tapered LED Surface Mount Disk Light

Designed to be the lowest total installed cost solution for residential spaces

The SlimBasics™ JSBT Tapered LED Disk Light Series come in 4" and 6" sizes and provide even illumination where you need it most. The matte white aluminum trim is aesthetically pleasing bringing a design element that easily blends with any décor. The family consists of an economical, static solution, a flexible solution with switchable white technology, a convenient solution that offers both switchable white technology and motion sensing, and compatible, smart solution that's perfect for seamlessly paring to your other smart home devices. This diverse platform gives you an option for every room of a home. Perfect for use in kitchens, closets, hallways, bathrooms and laundry rooms in both single and multi-family homes, as well as in light commercial spaces such as self storage facilities.

Features include:

- Available in static, switchable, switchable + sensor, and smart solutions
- Available in 4" & 6" sizes
- Wet Location listed
- Mounts to industry standard junction boxes (no bracket required)
- Suitable for use within closet storage spaces
