

TruWrap™ Curved & Flat

True Style. True Performance

The innovative TruWrap from our collection is a contemporary twist on classic lighting, offering a high-quality LED solution for general purpose illumination. Embodying the familiar functionality of traditional wraps, TruWrap integrates seamlessly into daily spaces with its low-profile elegance. Not only is it an economical choice, but its LED efficiency promises long-term energy savings. Choose TruWrap for a blend of modern style, enduring performance, and traditional functionality.

Features and Benefits

- TruWrap showcases a very shallow 2" profile and curved or flat microprismatic diffuser that delivers a modern aesthetic, blending form with function to elevate contemporary spaces with volumetric floor to ceiling light
- Offers a selection of three color temperatures (CCTs): 3000K, 4000K, and 5000K, as well as three adjustable lumen outputs (ALO) low, medium, and high, providing versatile lighting options for any ambiance
- Product footprint matches numerous existing fixtures, allowing it to cover old blemishes, ensuring a clean refreshed look without the need for repainting
- Perfect for illuminating a variety of settings including locker rooms, storage areas, hallways, and offices, enhancing functionality and design

Flat	Curved
 Wide	 Wide
 Medium	 Medium
 Narrow	 Narrow

True Style. True Performance

1 Lumen Package

- Curved Wide: 5,500 | 6,500 | 7,500
- Curved Medium: 4,000 | 5,000 | 6,000
- Curved Narrow: 2,000 | 3,000 | 4,000
- Flat Wide: 5,500 | 6,500 | 7,500
- Flat Medium: 4,000 | 5,000 | 6,000
- Flat Narrow: 2,000 | 3,000 | 4,000

2 Mounting Options

- TruWrap offers versatile mounting options including support for J-box, stem, and suspension setups, as well as conduit end feed and through-wire capability making it adaptable to virtually any ceiling installation challenge
- Designed with conduit end feed and through-wire compatibility (medium and wide only), TruWrap ensures a hassle-free installation, allowing for easy, direct connections and streamlined electrical integration

3 Performance

- Enhance any area with TruWrap's sleek 2" profile providing a clean, contemporary upgrade
- TruWrap features state-of-the-art microprismatic diffuser technology for a uniformly lit environment and volumetric floor to ceiling light
- Integrated CCT (color temperature) & ALO (adjustable lumen output) switching capability, along with multi-volt (120-277 VAC) compatibility, provide flexibility for your preferences and applications. 0-10 V dimming capability allows you to set light levels to your liking.
