

VAP LED

Architectural Vandal-Resistant LED Luminaire

Strong and Vapor-Tight with a Refined Appearance

Building on our reputation for designing vapor-tight fixtures that are “made to last”, Lithonia Lighting® bridges the gap between vandal-resistant products, aesthetics, performance and controllability. The VAP LED is the only polycarbonate vandal-resistant 4-foot linear fixture in the marketplace with a refined appearance, IP66 rated and up to 141 LPW. Vandal- and impact-resistant, it is ideal for parking garages, mass transit, school applications and other areas prone to vandalism.

Features

- 4-foot linear vapor-tight
- Up to 12,500 lumens
- Delivers up to 141 LPW and on the DLC qualified products list
- 40°C ambient rating
- Medium & wide distributions
- Frosted or clear lens option
- Optional controls including nLight® AIR wireless controls, daylight, occupancy and dusk-to-dawn sensing
- IP65 and IP66 rated; NSF listed
- Internal battery pack option

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

Wireless controls for demanding environments.

Choose the nLight® AIR enabled wireless controls option for the best controls solution. Reducing labor costs has never been easier for your demanding environment.

- 900 MHz wireless communication frequency easily penetrates typical obstructions found in commercial buildings like concrete
- Embedded sensors in luminaires simplify design and installation
- The CLAIRITY™ Pro mobile app simplifies startup and configuration without specialized tools or software
- The wireless adapter enables wired and wireless nLight devices to operate on one platform, utilize one suite of software applications, and connect to BACnet™ and edge and cloud-based applications
- Devices IP66 rated for indoor and outdoor use
- Five-tier security architecture delivers peace of mind for building owners and occupants

CLAIRITY™ Pro
Mobile App

Makes configuration easy, no specialized devices or software to learn. Finish the job even faster by using the CLAIRITY™ Pro mobile app to start-up and commission a job with both feet safely on the ground.

nLight® AIR Adapter
and ECLYPSE®

For regions that require advanced controls strategies like scheduling or demand response, nLight AIR easily connect the nLight® ECLYPSE® to aid in energy code compliance while also increasing the functionality of the system beyond compliance.

Lithonia Lighting® is a member of the Acuity Brands portfolio of lighting, controls and daylighting solutions. Lithonia Lighting offers one of the industry's broadest lighting portfolios for commercial and industrial lighting applications. This includes high bays, rough service, strips, wraps, recessed, surface, RELIGHT and retrofit kits. Our LED, fluorescent and HID lighting are recognized for their quality, reliability and solid performance, making Lithonia Lighting the most specified brand in the lighting industry.
